SUMMARY

AI-focused Full-Stack Engineer with 3+ years building scalable, production-grade applications and intelligent agents. Experienced in React, Next.js, Convex, and modern AI orchestration frameworks (LangGraph, Agno). Skilled at deploying automation systems and real-time complex platforms that boost efficiency and user engagement.

EXPERIENCE

Stellar Glaze — AI Solutions Engineer

2025 - PRESENT

- Built autonomous AI agents (LangGraph + Agno + OpenAI/Ollama) that automate lead-gen, research, and customer workflows – 40% higher task success.
- Architected a multi-agent RAG system (Pinecone + MCP) that automated social media content scheduling, engagement tracking, and analytics.

Sadeiq — Full-Stack Engineer

2024 - 2025

- Engineered real-time collaborative listing platform (Next.js + Convex) for 50K+ concurrent users – reduced synchronization latency by 40%.
- Delivered REST APIs that improved data retrieval 30%; shipped intuitive UIs that raised engagement 15%.

Melody Concept — Backend Engineer

2022 - 2024

- Led backend development of Django/PostgreSQL systems, collaborating closely with frontend and design teams to ensure seamless integration.
- Coordinated with content and marketing teams to integrate CMS & 3rd-party APIs, cutting content update time by 60%.

EDUCATION

University of Toronto — Computer Science (HBCS)

2020 - 2025

PROJECTS

Emadra LMS — Ongoing

Engineered a full LMS with role-based dashboards (student, teacher, org), OTP/email auth, rate limiting, real-time chat, and Polar payments. Delivered a fast, responsive UX with dynamic role-specific views.

Modular AI Automation System

Created autonomous agents automating social media scheduling and content creation via custom MCP servers — modular, scalable, and analytics-driven.

Multi-Vendor E-Commerce Platform

Developed a scalable multi-vendor e-commerce platform with real-time product updates, chat, advanced search, filtering, and secure checkout, optimized for speed and SEO.

SKILLS

Programming

- Python
- TypeScript
- Java
- C++
- Rust
- SQL

Frontend

- React
- Next.js
- TailwindCSS
- Motion
- Three.js

Backend

- Convex
- Django
- FastAPI
- PostgreSQL
- MongoDB
- SQLite

AI

- LangGraph
- Agno
- Ollama
- MCP

DevOps

- Docker
- Git
- Bun
- CI/CD
- AWS
- Netlify

LANGUAGES

- English (Fluent)
- Arabic (Fluent)

CERTIFICATES

Google Certificates

- Android App Development
- Cybersecurity
- Data Analytics
